

Application for patent filing

Date	D	D	M	M	Y	Y	Y	Y
					2	0	2	

Name of the Faculty	:	
Department	:	
Faculty ID Number	:	
Official E-mail ID	:	
Personal E-mail ID	:	
Contact number:		
Major area of invention	:	
Narrow focus area of invention	:	
Title of the invention		
Earlier status of research	:	
How different your invention from similar research / others - Novelty?	:	
Possible domain for field application	:	
Possible sector for commercialization	:	

PATENT APPLICATION

Invention Disclosure Form

To be filled by the inventors

Please provide highly relevant information for details asked below and use consistent language while describing the specific feature or element in the invention disclosure.

1. **Title of invention** (Please indicate a title for the invention and technology of the invention)
 2. **Describe the invention.** (Please describe specifically about the general purpose of invention. Is the invention a new process, device or product, system, software or a combination of these elements?)
 - General problem statement addressed:
 - Existing solutions for said problem statement:
 - Drawbacks in the Existing solutions:
 - How does your invention overcome the drawbacks in the Existing solutions (briefly)?
 3. Does the invention provide a **new use of or improvement to an existing product or process?** (Highlight the use or improvements from the existing with recent and relevant references)
 4. State the **Novelty** of the invention and specify the claims in the invention
 5. Describe the **advantages of the present invention over the existing technologies** (please identify the advantages e.g. efficiency, cost benefits, simplicity etc.
 6. Describe **in detail (with experimental evidences) on how the present invention overcomes the drawbacks** of currently available technology related to your invention. (please include the relevant references)
 7. Describe **uses, applications and benefits** of the invention.
 8. Does the focus of the invention results in **societal impact technology?** (Please
-

describe how in detail, also specify the commercial applications, market need of product/ service of invention and why?)

9. Characterize the **disadvantages and limitations** of the current invention
10. Enclose the **sketches, drawings, photographs** and other materials that help in better understating/ illustration of the novelty in the invention.

11 **Current development status of the invention**

- A. Has your invention been tested experimentally?
- B. Describe the experimental approach of the invention also state the methods adopted in the experiment.
- C. Are the experimental data is documented in a formal log or any instrumental confirmation available for the invention (kindly provide the details)?
- D. Is further development of your invention necessary or development of the invention is in progress (provide the relevant information)

12. **Please list any of your publications** (including abstracts, posters, news releases, etc.) to emphasize the present invention background.

13. Kindly perform a prior art search (using Orbit Intelligence) at the DEI office, R. No. 608, 5th floor, BEL building, or using free unpaid databases (Google patents, ipindia, USPTO, Espacenet, Patentscope) and fill in the following details from the prior arts closest to your invention.

Patent No. and Title	Content disclosed in the document	Difference in your invention

Publication title and author	Content disclosed in the document	Difference in your invention
------------------------------	-----------------------------------	------------------------------

Eg. Yash <i>et. al.</i> , 2005		

Market available product/current technologies, if any	Features of the product	Difference in your invention

14. INVENTOR(S) AND/OR CONTRIBUTOR(S):

	INVENTOR (1)		INVENTOR (2)
Name and Gender:			
Address:	Department of __, College of __, SRM IST, Kattankulathur: 603 203		Department of __, College of __, SRM IST, Kattankulathur: 603203
City and State:	Chennai & Tamilnadu		Chennai &Tamilnadu
Nationality	INDIAN		INDIAN
Email Id: (official and personal ID is required)			
Contact number:			

15. Mandate form to be filled for Technology Transfer Office (Mandatory)

1. Market Demand for the problem solved using the invention:

-
2. Novelty of the solution compared to the existing market products:
 3. Feasibility of the product:
 4. Market-readiness of the product/TRL No.:
 5. Affordability or proposed price point in comparison to the existing market products:
 6. Potential/Target Customers for the invention:
 7. Potential Competitors for the provided solution:
-
-
